

```
class Test
{
    int i =10;
    int j =20;
    public static void main(String[] args)throws CloneNotSupportedException
    {
        Test t1 = new Test();
        Test t2 = (Test)t1.clone();
        t2.i =111;
        t2.j =222;
        System.out.println(t1.i + "====>" +t1.j);
        System.out.println(t2.i + "====>" +t2.j);
    }
}
```
